

GERMANIAE ALIORUMQUE QUORUNDAM LOCORUM EUROPAE POLIOMETRIA.

Richtige ANZEIGE wie weit die Haupt-Orte in DEUTSCHLAND und andere berühmte Städte in EUROPA von einander entlegen, von TOBIAS CONRAD LOTTER Geogr. in Augsburg.

Main table of distances between cities, organized in a triangular grid. The left column lists cities from Augsburg to Zerbst, and the right column lists cities from Zürich to Zerbst. The interior contains numerical distance data.

Index table at the bottom of the page, listing city names in a single column for reference.
